

# Huge Curing Power in a Compact Space.

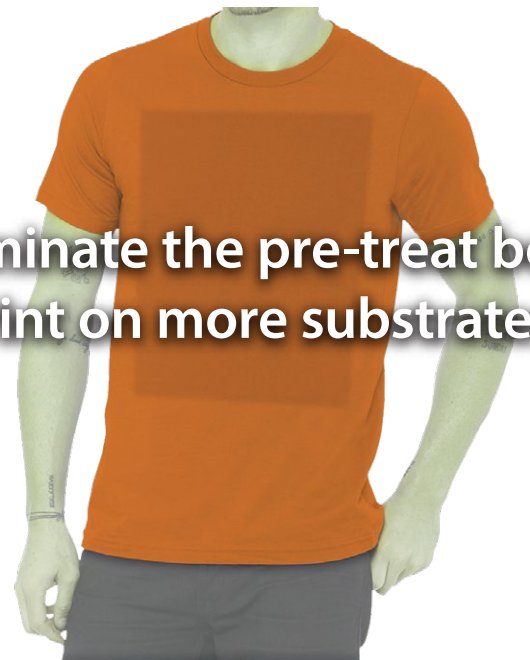

## DragonAir

### DAK-2406X

- Instant response, adjustable IR heat bump for faster cure
- Digital belt speed and temperature control
- Expandable heat section to double capacity
- 24" Wide Belt
- Calrod heaters warranted for 7 years
- Extended infeed by 2' for more output capacity
- Standard power requirements (208v, 1-Phase, 30A)
- Small footprint 97" L x 36" W

Eliminate the pre-treat box,  
print on more substrates!

The DragonAir Knight is designed for standard DTG, discharge, and water based printing.
